COVID Protocol Updates  
Effective June 5, 2021

In mid-May, the CDC and PA DOH modified their recommendations for COVID protocols. The guidance stated that fully vaccinated people, two weeks after their final dose, can resume activities they did prior to the pandemic without wearing a mask or physical distancing, except where required by law, rule, and regulation. At that time, the district decided to maintain our pre-established protocols. Effective immediately, we will follow the updated masking guidelines. In other words, at this time, masks are not required for fully vaccinated people.

We realize that this has been a difficult year. Some are ready to return to normalcy, others are a little apprehensive. We ask that you be respectful and kind to one another as we transition out of the pandemic protocols. Please give one another the space, time and courtesy to be comfortable in their surroundings.

### **Masks**

- Masks are not required for fully vaccinated individuals.

### **Social Distancing**

- For classrooms and instructional spaces, elementary school students should be at least 3 feet apart. Middle and high school students should be at least three feet apart if the level of community transmission is low or moderate. If substantial, six feet distancing is recommended.
- For all other settings, six feet distancing is recommended to the maximum extent possible.

### **Capacity Limitations**

- Both indoor and outdoor events may return to 100% (effective May 31, 2021)

### **Concessions**

- Concessions are permitted.
