# SWPBIS Routines

## SCHOOL

PBIS teaches what to do instead—and how to do it. Adults who calmly direct a child toward a new way of problem-solving can interrupt or prevent an escalation and help the child make better and better choices moving forward.

## HOME

Teach, remind, reward expected behaviors with positive feedback: Try anticipating tough situations and remind kids about the expectations. When you see them doing those things, let them know you noticed by telling them something positive.

## TOGETHER

It's helpful if these routines are similar to what students are already familiar with from school.
